
3 More Reasons to Sell Kyocera Document Management Solutions

Dear Kyocera Mita America Dealer,

Kyocera is pleased to announce 3 More Reasons sell Kyocera for Document Management Solutions:

- 1. iTag version 2.0 Upgrade Utility now available**
- 2. Updated iTag Multi-Media Demonstration CD available**
- 3. KYOcapture Express Available for Immediate Order!**

iTag Version 2.0 Upgrade Utility

The iTag version 2.0 Upgrade Utility is now available for order. All customers with an active Annual Software Maintenance Agreement (ASMA) are eligible for the version 2.0 upgrade software. Simply place an order on OTS using the attached instructions and you will receive an upgrade CD and users Manual. One (1) order per customer, per individual iTag unit required.

Updated iTag Multi-Media Demonstration CD

The iTag Multi-Media Demonstration has been updated to include the new features available with iTag version 2.0. This Demo has been designed to assist you in your iTag sales efforts. New highlighted features include:

- Enhanced Validation Station
- Microsoft Windows SharePoint Services 3.0 Key Features
- Auto Color Detection when Scanning from Select Kyocera MFPs
- And more...

KYOcapture Express Available for Immediate Orders

Kyocera is pleased to announce the launch of KYOcapture Express, the newest addition to Kyocera's suite of Document Management and Document Capture Workflow Solutions.

A scalable solution, KYOcapture Express is a Simplified Document Capture Workflow Solution ideal for small to mid-sized businesses that want to capture documents from select Kyocera MFPs, index and OCR them for full-text searching, and store them to a network folder, FTP, MS Exchange, Lotus Domino, etc. KYOcapture Express is fully upgradeable to KYOcapture Basic Server Package and optional components as business needs evolve over time.

Additional information about iTag and KYOcapture Express is available for download on KMAconnect. Logon today to learn more about these exciting Solutions from Kyocera.

Good Selling,
